## **POINTERS AND TIPS**

- If walking, walk briskly or "with purpose."
- If using a walk/run Interval, begin with one minute intervals. For example, run one minute, walk one minute. Gradually increase the run interval as the running becomes easier to run 2 minutes but keep the one minute walk interval. Build the run interval to five minutes.
- If running, set a comfortable pace. You should be able to carry on a conversation while running.
- Take walk breaks as needed.
- Cross-train one to three days a week, recommended, i.e. swimming, spinning, weight lifting, or yoga.
