

# AdventHealth Breast Cancer Care Fund

## Donor and Patient Information

Each year, an estimated 40,000 women die from breast cancer. But AdventHealth is helping women be more than a statistic. We treat more than 1,000 newly diagnosed breast cancer patients annually with expert care paired with compassionate service. In partnership with generous donors like you, the AdventHealth Breast Cancer Care Fund provides essential support to breast cancer patients throughout Central Florida.

### Your generosity can provide:

**Early detection and treatment**

**Risk assessment and genetic counseling**

**Research and clinical trials**

**Community education and awareness**

**Survivorship Support**

*AdventHealth is a tax-exempt, community-benefit hospital. One hundred percent of your gift will be applied to the cause you have designated.*

**To share your generosity,

## Serving Women in Need

AdventHealth believes all women deserve access to screening and diagnostic mammograms that allow for the early detection and treatment of breast cancer. You can qualify to have these imaging exams covered by the Breast Cancer Care Fund if you are uninsured and meet the following guidelines.

### Fund Guidelines

- Applications must be completed thoroughly with personal and income information.
- A physician prescription is required for a diagnostic mammogram. If you do not have a primary care physician, we will provide you with a referral to one of our highly qualified doctors.
- All breast cancer imaging procedures must be performed at an AdventHealth or AdventHealth Imaging Center location.
- All appointments must be made through the fund coordinator.

**Learn how you can benefit from the Breast Cancer Care Fund by contacting our fund coordinator at 407-303-1488 or [fundcoordinator@adventhealth.com](mailto:fundcoordinator@adventhealth.com).**
